Cracking and small natural slides in S. Gallatin

SOUTHERN GALLATIN RANGE
Southern Gallatin
1/6/2021
Code
Aspect
W
Latitude
45.04320
Longitude
-110.96200
Notes

"...the snowpack was talkative today. Tons of energetic rolling collapses that shook snow out of the trees 50 feet away, and shot powder up around aspens in a Colorado-esque way. Shooting cracks on low-angle test slopes, and isolated small natural slides on steeper, W-facing terrain."

Number caught
0
Number buried
