Small Skier Triggered Sluff, Beehive Basin

Beehive Basin Northern Madison 3/21/2021 Code L-AS-R1-D1-I Aspect SW Latitude 45.34070 Longitude -111.39100

From email: "We both set off some small sluffing on the west side of the ridge between Middle and Beehive on our way out; the snow on that a <u>aspect</u> was a lot thinner and more prone to sliding on the older icy crust under the new snow. Photos are from below where we skied out; we dropped onto the west-facing slopes maybe 100' south of the prayer flags."
